My File No. 2007-50

APPLICATION FOR PUBLIC HEARING

Dear Commissioner Welsh:

Application is hereby made on behalf of Munoco Company, 200 North Jefferson, Suite 308, El Dorado, Arkansas 71730, for a public hearing to consider evidence relative to the issuance of an order pertaining to the following matters:

- 1) To grant an exception to the spacing provisions of Order No. 1267-A, so as to permit the production of the "Placid Fee WB No. 4" well at a location 300 feet from the North Line and also 150 feet from the West line of the SE 1/4 of the SW 1/4 of Section 25, T8N-R2E.
- 2) To designate the "Placid Fee WB No. 4" well as a unit well for the Wilcox A Zone, Reservoir C, Sand Unit LL as defined and described by Order No. 1267-A, which Order covers the Wilcox A through C Zones in the Trout Creek Field, LaSalle Parish, Louisiana, at said exceptional location, and to designate Munoco Company as the operator of said unit.
- 3) To determine that the proposed location will effectively and efficiently drain a portion of the reservoir which would not otherwise be drained, absent the approval of the exceptional location.
- 4) To consider any and all other matters which the Commissioner of Conservation may deem appropriate and necessary under the circumstances.

Order No.1267-A was promulgated by the Office of Conservation on March 11, 1986,

effective January 1, 1986, establishing rules and regulations and creating drilling and producing units for the Trout Creek Field of LaSalle Parish, Louisiana for the Wilcox A through C Zones, Reservoirs A thru E. The Order provides that future wells located in the Trout Creek Field, within or outside any of the units created thereby, should not be drilled within 330 feet of any unit boundary or within 660 feet of any other well completed in, drilling to, or for which a permit has been granted to drill in such zone. The Wilcox A Zone in the Trout Creek Field was defined in that order as being that oil and gas or gas and condensate bearing interval encountered between the depths of 2536 feet and 3444 feet (electric log measurements) in the H.L. Hunt-Goodpine No. C-6 Well, located in Section 29, Township 8 North, Range 3 East, LaSalle Parish, Louisiana, LESS AND EXCEPT the B-1 Sand, Reservoir A, as defined in Order No. 1267, effective January 31, 1985, insofar and only insofar as said sand underlines the unit created by said Order.

The original unit well, the Placid Fee RC #5, was drilled and plugged in the year 1969. There is no current unit well in the subject unit.

The applicant attaches hereto a plat showing the proposed location for which this special permit is sought.

Inasmuch as the matters covered by this application do not require a pre-application notice, no such notice has been given and it is requested that the hearing be held after the necessary ten (10) day delay following legal advertisement.

In accordance with the Rules of Procedure, the applicant has made a diligent effort to obtain the names and addresses of all interested owners and represented parties to whom notice of this application should be sent and a list of such names is attached hereto.

The applicant will also cause a copy of the legal notice to be published in a newspaper of general circulation in LaSalle Parish, Louisiana and shall post a copy of the notice in a prominent place in the LaSalle Parish Courthouse.

A copy of this letter, the attached plat and list of interested owners and represented parties is being sent to the District Manager of the Monroe District Office.

Also enclosed is a check in the amount of \$755.00 in payment of the required filing fees.

Yours Very Truly,

DORROH & KENDRICK, a PLC
